

## PHARMACOLOGY

**Refer to your organization's resources, drug uses and contraindications.**

The stroke rehabilitation units' level of acuity will influence education requirements with respect to pharmacology. Please note that all or none of these drugs may be applicable to your area of work and you should check with your nurse educator for clarification surrounding education needs:

- Angiotensin-Converting Enzyme (ACE) Inhibitors
- Angiotensin Receptor Blockers (ARBs)
- Beta Blockers
- Calcium Channel Blockers
- Diuretics
- Lipid Lowering Agents
- Platelet Inhibitors, Anticoagulants and Novel Oral Anticoagulants
- Antidepressants
- Other
