

Educational Resources: A Guide for Stroke Care Providers

1

E-Learning Modules

Self-directed learning modules are available on the SWOSN website to support knowledge translation across the continuum. Current modules include: Acute & Rehab Stroke Orientation, ACT-FAST, Life After Stroke Series, Rehab Intensity, Sexual Health, and Smart Tips for Stroke Care.

2

Monthly E-Newsletters

SWOSN provides monthly updates through “Brain Buzz”, an electronic newsletter. Archived editions are available on the SWOSN website and highlight upcoming educational opportunities, popular and updated resources, and best practice reminders.

3

Education Presentations

Catch-up on events that have been previously recorded, such as: Provincial Stroke Rounds, Best Practice Webinars, and Frontline Education. Presentations range in duration (15 minutes-60 minutes) and in content (acute, rehab, and/or community focused).

4

Professional Networks

SWOSN proudly facilitates the organization of seven professional stroke networks (OT, PT, RA, SLP, RT, Nursing, and SW). These various networks provide an opportunity to come together for discipline specific collaboration and networking.

5

Canadian Stroke Best Practice Recommendations (CSBPR)

The CSBPR are intended to provide up-to-date, evidence-based guidelines for the prevention and management of stroke, and to promote optimal recovery and reintegration for people who have experienced stroke.
