

Driving after Stroke: Licence Not Suspended

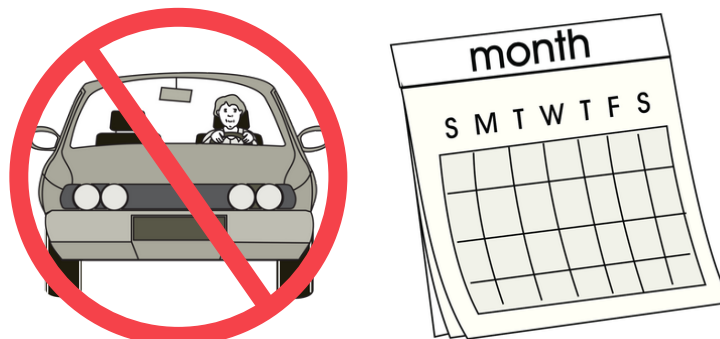

I had a **stroke**. My **healthcare team** looked at my **ability to drive**.

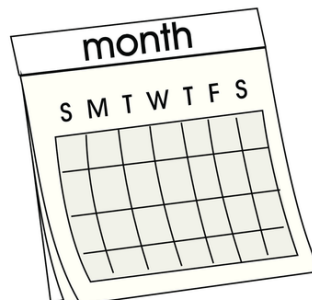

I **still have** my **licence**.

Depending on your **symptoms**, you may be **advised not to drive** for a period of **time**

I need to see my **doctor** after **30 days**.

After I see my **doctor**, I will **find out** if:

I can **drive**

I have to **wait longer**
before I can **drive**

I need a **driving test**
